JAM VINCENT J. GUEVARRA

jamvincentguevarra@gmail.com 09770866821

Versatile and forward-thinking creative professional with a strong foundation in visual storytelling, digital design, event production, and technology. With over 7 years of experience as a videographer, photographer, and graphic designer, I've led and contributed to diverse creative projects ranging from weddings and brand campaigns to student initiatives and digital marketing.

Currently an incoming 4th year Computer Science student, I bring a unique blend of artistic vision and technical skills, with proficiency in tools like Adobe Photoshop, CapCut, Canva, DaVinci Resolve, and Figma, alongside knowledge in programming and web development. A natural leader and communicator, I thrive in collaborative environments where creativity, innovation, and purpose come together to produce impactful results.
